

## **CLE: Electronic Data Discovery Early Case Assessment**

When: November 4<sup>th</sup>, 2010 | Time: 6:00PM - 9:00PM

Where: North Star Fund

520 Eighth Avenue, Suite 2203  
(Between 36<sup>th</sup> & 37<sup>th</sup> street)  
New York, NY 10018-6656

Speaker: Joseph Bartolo, J.D.

Early Case Assessment - What does the term mean?

- Electronically Stored Information (ESI) - What impact is it having on legal profession?
- Evaluating the costs of electronic data discovery and other factors pertaining to the collection, processing, and review of ESI.
- Suggested best practices for legally defensible processes.
- Tips on how to prepare for the “Meet and Confer”.
- A discussion how to use technology to help reduce costs and generate more accurate budgets for projects.
- A discussion of recent legal precedent that provides guidance on how to properly collect, review and produce electronically stored information.
- Real life examples of conduct that resulted in sanctions.
- Tips on how to improve the efficiency of the overall discovery process.
- Near De-Duplicaton - Why is this important?
- Trends in the legal profession - What are some likely future developments?
- Practical insights from the Sedona Conference, and the EDRM.
